We salute these extraordinary women for their courage and dedication to protecting the State of Israel

This is **Lieutenant Colonel Orr Ben Yehuda**, commander of the **Caracal Battalion**, whose troops successfully eliminated approximately 100 Hamas terrorists - ultimately saving countless lives. Seated in front of her is her mother, **Prof. Dina Ben-Yehuda**, Director of The Division of Hematology at Hadassah University Hospital, and former dean of the Hebrew University School of Medicine.

Heroism appears to be a family tradition, as her mother earned a military commendation 50 years ago for defending Israel in the Yom Kippur war.

The **Caracal Battalion** is an infantry combat battalion of the **Israel Defense Forces** that is composed of mostly female soldiers.

Goethe U and Hebrew U collaborate to create The Center for  
Childhood and Child Welfare

The new **Center for Childhood and Child Welfare** will focus on a range of critical topics, including children's well-being, children's rights, children's welfare, vulnerability, violence, abuse, and neglect.
